

NPOWER: AVERAGE REACH

HOW TO READ

The Average Weekly, Monthly, and Quarterly Reach Report Segment options provide the convenience of weekly, monthly, or quarterly reaches with the ease of using broader schedule dates. It is recommended that you utilize a date range larger than the reach desired. For instance, if you select average weekly reach, you should pick a schedule measurement interval that includes more than one week.

When you select an Average Reach Option on a Reach and Frequency report, all of the Reach statistics reported on the Schedule Summary tab will now be based off of Average Reach (weekly, monthly, or quarterly depending on your selection).

EXAMPLE

The example below shows a two month schedule utilizing Average Weekly Reach, for Morning News Show A, among Persons 18-49. Reports based on monthly or quarterly average reach would be read the same way, just substituting monthly or quarterly, for weekly, in the descriptions below.

Schedule Name	AVG Weekly Units	AA AVG Weekly Reach%	AA AVG Weekly Reach Proj(000)	AA AVG Weekly Average Frequency	AA AVG Weekly Average Minutes	Qualified AA AVG Weekly GRP%	Qualified AA AVG Weekly GRP Proj(000)	AA AVG Weekly Effective Reach(3+)
Morning News Show A (64,4772)	64	4.57	5,838	2.14	82.96	9.76	12,485	1.48

AVG WEEKLY UNITS

Total units included in the schedule. In this program example with one telecast each day, it's 64 units, equaling 64 days.

AA AVG WEEKLY REACH%

Morning News Show A reached 4.57% of P18-49, during an average week.

AA AVG WEEKLY REACH PROJ (000)

Morning News Show A reached 5,838,000 P18-49, during an average week.

AA AVG WEEKLY AVERAGE FREQUENCY

P18-49 viewed Morning News Show A an average of 2.14 units per week. In this program example, with units built at the telecast level, this is 2.14 telecasts per week.

To include Average Reach Options in your Reach and Frequency reports, use the RF Program or RF Time Period report, and select **Average Reach Options; Weekly, Monthly, or Quarterly**, on the Report Segment Selection page.

If you're interested in learning more about Segmentation Reports, please attend our Reach and Frequency courses by registering for them on the [NPOWER](#) learning page.
